

Dear Colleague

16 October 2002

The Computer Measurement Group (CMG) South Africa is a non-profit organisation that provide a forum for the exchange of knowledge related to the Measurement and Management of Information Systems. CMGSA is affiliated to CMG in the USA as well as to the CSSA and is the largest and most successful user group (CSSA Special Interest Group) in South Africa.

It is, however with regret that I have to announce that the conference that was scheduled for the 16th and 17th October 2002 at the Idle Winds Hotel on the Haartebeestport Dam Road, has to be postponed to the first week in March 2003. This decision was taken after very little interest was shown by the South African vendor community, in participating as exhibitors. If we had to proceed with the conference, CMG SA would be in dire financial trouble due to the enormous cost associated with such a conference, without the required funding.

The committee of CMG SA wish to thank EMC, Shoden and SAS for their commitment, as well as all the local speakers that have indicated their willingness to partake. In addition, special thanks must go to the international delegates, from Italy, USA and the UK, for their contributions.

CMG South Africa will hold its Annual General Meeting, during November, with the exact date, time and venue to be advised in due course.

If you have any queries, please do not hesitate to call me on (011) 519-8629 or 083-676-9722.

Yours Sincerely

Werner Liebenberg
CMG SA Chairman
